## Comments on overall assessment of this course.

The workload was appropriate for what I gained from this class.

- This evaluation may look like I put little thought into it, but I truly loved this course even though it is the opposite of my science major. The professor made the course because he facilitated the most engaging discussions I've had this year. I was worried about the course especially when I saw how strange some of the literature was, but I made a point to finish each reading just so that I could participate in the discussions. I recommend this course and professor to anyone ready for a thought provoking experience.
- · While general ed classes are nothing anyone truly enjoys, Mr. Bolling was an enthusiastic teacher and clearly enjoyed the subject matter.
- · Fantastic course and Ben Bolling was a very engaging, exciting and energetic professor. His passion and enthusiasm for the course was apparent.

- I enjoyed the texts we read and thought they were thought provoking and well chosen by the professor.
- The discussions in class helped me understand the books better; however, I feel as if we went too fast on some books and could of spent more time discussing them if we didn't have so many books to read.
- absolutely love this course! Professor Bolling is awesome!
- · Great professor
- This teacher was utterly amazing! He was always excited to be in class which made us as students excited for the class. He was engaging and easy to follow and understand. The discussions were strong and though he lead them, students did fully take part every day of class. Fantastic teacher, this is the most interesting class I have taken at Carolina. I would suggest this any class he was scheduled to teach to anyone looking for an English credit. I would suggest this teacher to anyone looking for an amazing English professor. I plan on taking another of his classes, should he teach another in the next semester.

## COURSE: texts, requirements and standards, organization, emphasis, etc. Did you find the material interesting or valuable?

- · Verv diverse.
- I found most of the material that we covered in the course interesting, but not necessarily valuable. The texts that we read were thought provoking, but because of the number of books we were required to read, I found myself skimming the material rather than enjoying the books thoroughly. I would have rather spent more time on fewer books.
- The material was interestingly controversial while still being exactly what I expected from a diversity course.

- Yes.
- · Paper topics were relevant and thought ptovoking

- He assigned papers that used that knowledge and close reading we were in encouraged to do in during class discussion to apply to the topics of the paper. The professor helped me improve my writings by giving feedback to us on our first paper and offering feedback on our midterm and directing us to resources that would help improve our writing as well as spending class time to go over common mistakes on our papers.
- · yes! definitely helped me improve!

## CLASSROOM ENVIRONMENT: daily organization, atmosphere, effective use of scheduled class time, etc. What would you have liked to do more of? Less of?

- It was a lot of class discussion, and I would have like some more instruction.
- · organized yet relaxed atmosphere
- Overall I liked the structure of the class. The discussions were usually helpful and and engaging.
- We may have tended to lose track of class time, but this was because each discussion was so enthralling it took the professor to reel us back in. Still we never had to push any work back because we weren't able to finish which is amazing.
- The classroom environment was mostly open discussion which I enjoyed.
- Fantastic discussion atmosphere and exciting use of class time. Quizzes were not always necessary, but really enjoyed spending time discussing texts and concepts/genres.
- The environment was very conducive to the goals we were trying to achieve.
- More time to talk about cultural influences. Less reading guizzes
- · I really enjoy class discussion, so the format of this class worked perfectly for me.
- The daily organizations was good since there was a structure in the way we did things; however, I would of liked more discussion time and less books to read so that we could have more time to look more into the books because I felt like we went through each book too fast so it was hard to grasp most of the important concepts in the books.
- He did everything perfect
- Our classroom was a very safe environment where anyone could speak and not feel judged for their contributions to a discussion. But I wish we had spent more time actually discussing the texts.
- I would've liked more music, less texts with more emphasis placed on the texts
- I loved how the class was set up because we were basically given the entire time to have an open discussion of the texts.
- · more discussion on the texts, the presentation papers were helpful but I think that we spent too much on them as a class
- Class environment was fantastic. Great discussions. I would suggest that maybe reading quizzes were unnecessary; I for one would have done the reading anyway.
- Environment was open and fun. Class time was used well and there was always time for needed discussions.
- The majority of the class was similar to that of a seminar where anyone was able to speak of any topic related to the readings.
- I fully enjoyed the discussions although at times, they seemed very unprepared and undirected. Meeting authors of several works was also an interesting experience.

- Mr. Bolling is generally a friendly, enthusiastic person to speak with one-on-one.
